

Jero Selvin Josis Justin

Professional Experience

Part-Time AI & Robotics Trainer | June 2025 – Present

Freelance / Educational Training Programs

Probino Solution Sdn Bhd, Kulim, Pulau Pinang, Malaysia

Deliver engaging and hands-on training in Artificial Intelligence (AI), Robotics, STEM, and programming to primary and secondary school students. Design and conduct interactive workshops covering AI concepts, robotics, automation, coding, and problem-solving techniques. Guide students in developing practical projects using Scratch, Pictoblox, Python, sensors, and robotics kits. Foster creativity, critical thinking, and innovation while introducing emerging technologies such as Generative AI, Machine Learning, Computer Vision, and Industry 4.0 concepts. Develop training materials, assessments, and project-based learning activities to enhance student understanding and technical skills.

Senior Test Engineer | Feb 2023 – Jan 2024

Flextronics Technology Sdn Bhd, Prai, Pulau Pinang, Malaysia

Senior Test Engineer with strong experience in manufacturing test operations, product quality monitoring, and yield improvement in a high-volume production environment. Proven expertise in analysing test failure logs, Reduced test failures by 25% through RCA and CAPA implementation, and implementing corrective and preventive actions (CAPA) to improve product reliability and compliance with QC standards. Experienced in leading cross-functional collaboration with Product Engineering, QA, and Quality Control teams to resolve test and quality issues. Skilled in test equipment and process automation using Python, PyTest, and PySerial to enhance test efficiency, accuracy, and continuous improvement initiatives.

Manufacturing Engineer | Aug-2022 to Jan-2023

Jabil Circuit Sdn Bhd, Bayan Lepas, Pulau Pinang, Malaysia.

As a Manufacturing Engineer, I optimized manufacturing processes, maintained production equipment, reduced operational costs, and ensured quality control compliance by collaborating with QC and production teams, conducting quality checks, and creating and updating AutoCAD 2D layouts, mechanical drawings, floor plans, and equipment layouts to improve production efficiency, minimize downtime, and enhance overall product quality.

Calibration Engineer cum Office Admin | Nov 2017 – Jun 2022

Micro Precision Calibration Sdn Bhd, Malaysia (India Branch)

Calibrated electrical, mechanical, RF, and optical equipment by scheduling, executing, and documenting calibration processes to ensure accuracy, compliance, and optimal performance. Collaborated with QC and QA teams to maintain adherence to quality standards and QC policies. Assisted in mechanical fixture design and calibration setup drawings using AutoCAD, and demonstrated strong ability to read, edit, and interpret electrical and mechanical blueprints. Managed internal audits, prepared yearly income tax submissions, and handled accurate GST calculations and filings to support smooth branch operations.

Operation Executive & CCTV Technical Advisor and Business Development

| Jul 2016 – May 2017

Oversaw daily operations to streamline processes and ensure operational efficiency. Provided technical expertise on CCTV systems, including system design, installation guidance, and client advisory services. Drove business growth through strategic planning, client engagement, and solution recommendations. Utilized AutoCAD to create CCTV system layouts and structured cabling plans to optimize installations and infrastructure.

jerojosis1906@gmail.com

Date of Birth
19-06-1984

Marital Status
Married

Skills

- Test Failure Analysis
- Yield Improvement
- Root Cause Analysis (RCA)
- Corrective and Preventive Action (CAPA)
- Product Validation
- Production Testing
- Failure Analysis
- Statistical Process Control (SPC)
- New Product Introduction (NPI)
- Reliability Engineering

Key Technologies

- Python
- PyTest
- PySerial
- Power BI
- SQL
- SPC
- Six Sigma
- NPI
- Lean Manufacturing
- Industry 4.0

CCTV, Computer & Networking Technician and HR Assistant

| Apr 2012 – Feb 2016

Pelita Samudra Pertama (M) Sdn. Bhd, Malaysia

Installed, maintained, and troubleshoot CCTV systems, computer networks, and IT infrastructure to ensure reliable performance. Supported HR operations by managing employee records, handling recruitment processes, and addressing HR-related inquiries and administrative tasks. Collaborated with teams to optimize IT and HR workflows and maintain compliance with organizational policies.

System Administrator

| Sep 2009 – Dec 2011

Supreme Catering Company, Kandahar, Afghanistan

Managed IT infrastructure, including servers, networks, and software systems. Handled user account management, system monitoring, troubleshooting, security measures, and data backup. Configured hardware and software and provided technical support to end-users, ensuring system reliability and efficiency.

Networking Technician

Prime Projects International, Baghdad, Iraq | Apr 2009 – Jun 2009

Installed, configured, maintained, and troubleshooted computer networks, including routers and switches. Ensured network connectivity, monitored performance, optimized efficiency and security, provided technical support, documented configurations, and collaborated on network upgrades and expansions.

Networking Technician

Top Insight Computers (L.L.C), Dubai | Dec 2008 – Mar 2009

Installed and configured network hardware and software, managed LANs and WANs, and troubleshooted network issues. Monitored network performance and security, provided technical support to end-users, documented configurations, and collaborated on infrastructure upgrades to enhance efficiency and reliability.

System Administrator

The Indian Engineering College,

Tamil Nadu, India

| Oct 2007 – Nov 2008

Managed IT infrastructure, including servers and network devices, and maintained computer labs. Provided technical support to faculty, staff, and students, monitored system performance and security, enforced IT policies, conducted data backups, and collaborated on IT projects. Researched new technologies, improved IT services, and delivered training on IT tools and best practices.

Computer Hardware Technician

HARD-NET, Tamil Nadu, India

| Mar 2004 – Sep 2007

Diagnosed, repaired, and installed computer hardware, printers, and peripherals. Performed hardware tests and routine maintenance, provided technical support to end-users, documented repairs, and adhered to safety protocols to ensure optimal system performance.

Academic Background

**Bachelor of Science in Electrical & Electronic Engineering
Wilmington Metropolitan University (Online)**

**Advanced Diploma in Computer Hardware & Networking
Hard-Net, Tamil Nādu India.**

**Diploma in Mechanical Engineering
Micro Intelligence Technical Institute, Tamil Nādu, India**

Certifications

- Six Sigma Yellow Belt
- Diploma in Quality management (Online Course)
- Python in Excel
- Software Testing
- Excel: Pivot Table
- LabView Core 1
- LabView Core 2
- MCSA (Microsoft Certified System Administration in Windows 2000 Server)
- Associated Network Consultant Program
- (MCSA, CCNA, PIX, Wireless Lan, Linus, VoIP)
- Power BI
- HP3070 Hardware Maintenance & Calibration
- NDE Certification
 - Radiography Testing
 - Magnetic Particle Testing
 - Ultrasonic Testing
 - Liquid Penetrant Testing

Languages

- English
- Malay
- Tamil
